

U.S. Application No.: 09/604,285
Attorney Docket No.: EP-7041-Div

Cancel claim 55.

Add new claim 56.

C2
56. A method for lubricating an engine comprising adding a lubricating composition of claim 22 or claim 23 to said engine.

[Add new claim 57.]

57. An engine lubricated according to the method of claim 56.

IN THE SPECIFICATION

Page 2 (e.g. column 1, line 1), after the Title, insert the following new paragraph:

C3
Application Serial No. 09/604,285 filed June 26, 2000, is a continuation of application 09/359,770 filed July 22, 1999 and now Re 37,363E, each of which are reissues of U.S. Patent No. 5,650,381, which was granted from application serial no. 08/559,879 filed November 20, 1995.

REMARKS

Upon entry of this Amendment claims 22-40, 42-52 and 56-57 will be presented. Previously, claims 22-40 and 42-55 were examined and pending in the application prior to this Amendment. The Examiner has rejected claims 22-55. Applicants have earlier canceled claim 41 and now cancel claims 53, 54 and 55 without prejudice or disclaimer. New claims 56 and 57 are supported by the original specification, including Example 7 (referring to an engine) in view of the helpful discussion with the Examiner at the interview of September 24, 2002. Per direction of MPEP Section 1454 and 37 C.F.R. §1.173(c), amended claim 30 corrects an inadvertent typographical oversight by correcting the spelling of "naphtnenate" to naphthenate.

The amended specification introduces a paragraph referring the present reissue application, its parent application, and the original patent grant. This paragraph is
